# Living with Design

## About Us

At KUN DESIGN, we create outdoor furniture and accessories that embody the contemporary era. Our products are developed from materials that retain the integrity of outdoor furniture without compromising the sophistication of indoor furnishing. Inspired by nature and life, our furniture can be placed anytime, anywhere, regardless of season and setting.

In pursuit of “Living with Design”, we design furniture with an inclusive language that is unlimited by spatial boundaries, for users of all backgrounds to explore the many ways to integrate design with space. Joining the strengths of “Designed in China” and “Made in China”, Kundesign hopes to bring products that are both modern and accessible to anybody who appreciates good furniture.

## Our Story

Prior to establishing Kun Design, Kun worked as an independent furniture designer and collaborated extensively with brands across the world, including those from Italy, the Netherlands, Sweden and the U.S. His works have been a regular fixture at trade fairs such as Spoga+Gafa Cologne and Salone del Mobile Milan.

While finding international recognition, Kun came to realize an untapped potential within China’s industry of outdoor furniture - an enormous but fragmented market, with manufacturers of high caliber but heavily reliant on OEM. For Kun, his works represent a continuous dialogue between design and manufacturing, and he felt a need to use the force of design to better present “Made in China” on the global stage. With this ambition in mind Kun met his current manufacturing partner, a veteran outdoor furniture producer of 20 years and a benchmark for quality products. Joining the strengths of “Designed in China” and “Made in China”, Kun Design was established to bring products that are both modern and accessible to the international market.

### Designer

Kun completed his studies in furniture design at the NFU in Nanjing, 2012. Since graduating, he has collaborated extensively with international furniture brands, including those from Italy, the Netherlands, Sweden, and the US. His works have been regularly featured in exhibitions such as Spoga+Gafa Cologne, Salone del Mobile Milan, and ICFF New York. He has been awarded the China Good Design Gold Award in 2015, and the 2018 ICFF NYC X DESIGN AWARDS Honoree in Outdoor Seating

A designer who mainly engages with contemporary spatial and furniture design, Kun has a maker-mind mentality with deep insight into the manufacturing process. He strives to integrate his works with the procedures of industrial production to embody the latest available technology. Kun often upgrades and optimizes the current manufacturing processes in accordance with his designs and newly developed materials, in hopes that his products can maintain modernity and sophistication without compromising accessibility. His preference for designs with creative utility and emotional warmth can be seen through the details of his works.

## Kundesign / 2022 Collection

LOOP (KC8604) low chair in Orange/Sand  
Bloom (AB0871) dining table in White  
LANTERN (KH8510) hand lamp(M) in Magma/Midnight Blue/Beige

## LOOP

The LOOP chair was originally designed to express continuous lines. The entire chair is woven with a single continuous rope. In order to ensure continuity and product quality, the back and the seat of the chair were proportionally divided into four parts, which not only boosts the appearance, but also increases the product lifespan. Soft as well as responsive, the chair provides a comfortable seating experience without the need of a cushion. Additionally, the wear-resisting and strong PVC simplifies the cleaning processing - use a soft brush to give it a fresh new look.

LANTERN (KH8510) hand lamp(M) in Taupe/Beige/Black Mat/  
Orange/Olive

The inspiration of Lantern series comes from the combination of oriental aesthetics and modern design. Lantern series is about "light", the lamp absorbs the configuration elements and special style from the traditional Chinese lantern and hand-basket. It retains the elegant "handle" design on the top, which can be easily carried and moved at will. For this hand lamp, it adds a small round bottom, which you can display plant, flower, decoration pieces to build the cozy atmosphere, delightfully fresh nature.

## PILLOW

The back and armrest cushions of the collection resemble soft pillows - just like the collection name - whose coverings can be removed for easy cleaning. Wrapped with KunDesign Tex, a material with remarkable durability and resistance to outdoor conditions, the quick-drying cushions are designed to be placed outside. Seated on a teak or bamboo base frame to create a textual contrast, which are FSC certified in consideration of the environment. With versatile modular components, the Pillow sofa is suitable for all interior and exterior settings.

PILLOW (KC8804) sofa set 1, armchair, coffee table (KT8804) 122 × 68 × 25cm; cushions in Linen

BALANCE (KT8508) side table in OliveGrey  $\varnothing 33.6 \times 51$  cm

## RUGBY

An interactive conversation between metal, wood, and fabric resulted in the design of the RUGBY series. The upholstery's plump shape is relieved by spindle shaped-legs, so the resulting structure takes on a refreshing rather than chunky appearance. The armrests have a width and height that match the body's natural arm placement, and also serve as partition from the cold metal frame. Constructed with comfortable materials that are weather-resistant, the collection can be used in all spaces, both outdoors and indoors.

## BANYAN TREE

With a curvature that conforms to the natural arch of the human spine, the back of the Banyan Tree series is designed to put the body at ease. The interwoven strands are reminiscent of tree vines to create a distinctive look that can easily complement its surroundings. Weaved in weather-resistant and easy-to-clean material, the Banyan Tree is a versatile series that can be placed in small living spaces, both indoors and outdoors. Available in variations of sofa, lounge chair, rocking chair, and dining chair, the latter which features a stackable design that eliminates any storage problems.

## OVAL

OVAL chair is our contemporary and three-dimensional take of the traditional board back chair. The edge stamping craft allows it to have a large and three-dimensional backrest - comfortable and compact. The legs have plump lines that give off a powerful presence when placed in open space. We use wooden finish on the aluminium seat surface to make it more durable and easier to maintain while retaining the warm visual sense of wood.

PIPE bar cart (KH8503) in OliveGrey.

Derived from the PIPE double deck coffee table, the bar cart has been designed in full consideration of its usage and movement. It has a stable structure that is easily maneuvered around. Minimalistic and modern, the design of the PIPE bar cart can be well integrated into the outdoor environment.

PIPE (KH8503) bar cart in Cream White

## BALANCE

A return to the basics was the central theme at the start of our weight table design process. Weights are used as mass standards to express our understanding of the load bearing of the table. The lines on the weights are designed with respect to the golden ratio, thus the top and bottom components are firm and secure. The series of weights also have symmetrical upper and lower end-tables, with the upper one removable to serve dual functions of storage and flower arrangement.

## MOONCAKE

Inspired by joyful holiday moments in life, the Mooncake stool is shaped like a traditional snack in the Mid-Autumn Festival, with continuous arc design and bright colors, presenting a light and cheerful playfulness. This all-aluminum stool is waterproof, easy to clean and maintain. It is suitable as an item to decorate the courtyard or indoor space. It can also be used as a side table to create a vibrant atmosphere.

## LOTUS PLANTER

The Lotus planter continues to express the family character of the series, with the central column shaped like a petal and a continuous combination of one petal to another. The overall flowerpot upper matches the rhythmic base of the petals below, achieving a more aesthetically pleasing ratio. This series is more suitable for home use with four reasonable sizes to meet your different plant needs.

# BANYAN TREE

With a curvature that conforms to the natural arch of the human spine, the back of the Banyan Tree is designed to put the body at ease. The interwoven strands are reminiscent of tree vines to create a distinctive look that can easily complement its surroundings. Weaved in weather-resistant and easy-to-clean Kundesign Rope, the Banyan Tree is a versatile series that can be placed in small living spaces, both indoors and outdoors.

# OVAL

OVAL chair is our contemporary and three-dimensional take of the traditional board back chair. The edge stamping craft allows it to have a large and three-dimensional backrest - comfortable and compact. The legs have plump lines that give off a powerful presence when placed in open space. We use wooden finish on the aluminium seat surface to make it more durable and easier to maintain while retaining the warm visual sense of wood.

# MOONCAKE

Inspired by joyful holiday moments in life, the Mooncake stool is shaped like a traditional snack in the Mid-Autumn Festival, with continuous arc design and bright colors, presenting a light and cheerful playfulness. This all-aluminum stool is waterproof, easy to clean and maintain. It is suitable as an item to decorate the courtyard or indoor space. It can also be used as a side table to create a vibrant atmosphere.

# BLOOM

The design concept of Bloom Table is inspired by flower blooming in nature. The dispersive shape of the legs expresses relaxed and free breath; The convergent central pillar shows the strength of cohesion. The table has a detachable frame for easy packaging and transportation. The desktop has a ceramic or aluminum board to choose from, to adapt to the diversified style environment.

# BALANCE

A return to the basics was the central theme at the start of our weight table design process. Weights are used as mass standards to express our understanding of the load bearing of the table. The lines on the weights are designed with respect to the golden ratio, thus the top and bottom components are firm and secure. The series of weights also have symmetrical upper and lower end-tables, with the upper one removable to serve dual functions of storage and flower arrangement.

# LANTERN

The inspiration of Lantern series comes from the combination of oriental aesthetics and modern design. Lantern series is about "light", the lamp absorbs the configuration elements and special style from the traditional Chinese lantern and hand-basket. It retains the elegant "handle" design on the top, which can be easily carried and moved at will. For this hand lamp, it adds a small round bottom, which you can display plant, flower, decoration pieces to build the cozy atmosphere, delightfully fresh nature.

# PIPE

Accessories

Minimalistic and modern, the design of the PIPE accessories has fully considered the product's usage and movement, and can be well integrated into the outdoor environment. The tables are offered with a double-layer framework to expand potential storage space, or with a handle for convenient placement. The bar cart has a stable structure that can be easily maneuvered around.

FRAME:

# LOTUS PLANTER

The Lotus planter continues to express the family character of the series, with the central column shaped like a petal and a continuous combination of one petal to another. The overall flowerpot upper matches the rhythmic base of the petals below, achieving a more aesthetically pleasing ratio. This series is more suitable for home use with four reasonable sizes to meet your different plant needs.

FRAME:

# LOTUS VASE

The design of the Flower Vase comes from KUNDESIGN's iconic Lotus series, trying to do an environment-friendly and sustainable design. This vase uses the leftover material from the column of Lotus Table. Through recycling and reuse, the re-design and application are realized. Flower Vase takes 'petal' as one continuous element, creates a happy and flowing rhythm. S vase is suitable for green plants within 25cm, it can also be used as a storage bottle or decoration. M vase is used for daily flower arrangement. There is a 'single petal' design on one side, which provides a creative place for flower lovers. L vase is specially designed for hydroponic large-sized branches and plants, the bottom of the vase is equipped with a small partition, which can better fix branches or large bouquets above 50cm and avoid swaying or dumping.
